the art of Transparency

welcome to a new era of eyewear where style meets honesty. The **Yuto Aoki collection** strips away the unnecessary, leaving only essential design and optical precision. Featured here, the translucent crystal frame offers a modern, airy aesthetic that complements every face shape without hiding your features. At **OptiSaver by Alpro**, we believe in total **transparency**—both in **our lenses and our pricing**. One price, no hidden costs, just perfect vision.

why us?

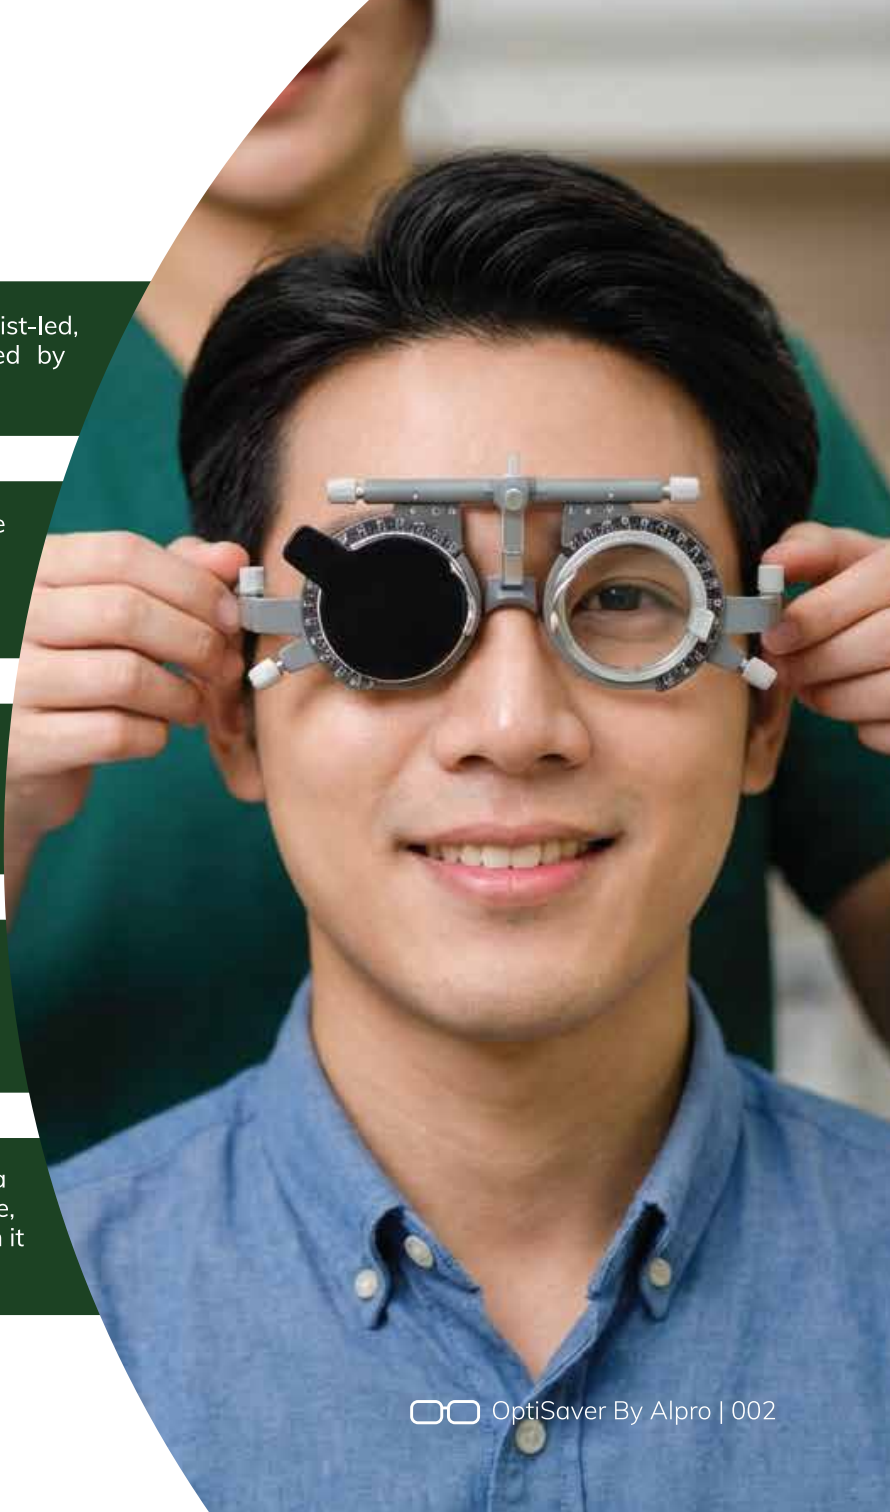

Professional Trust: We deliver optometrist-led, clinically validated refraction, supported by Alpro's professional standards.

Radical Transparency: We promise honest pricing with no hidden costs and no upselling, ensuring you know exactly what you pay for.

Designer Aesthetics: Our collection features Japanese designer frames, offering you a look that is both stylish and timeless.

Empathetic Care: We listen. Our advisor-style communication ensures you feel understood and supported throughout your journey.

Exceptional Value: We deliver a premium experience at a fair price, providing quality that is worth more than it costs.

“the routine check that identified my dry eye symptoms

Like many working from home, I thought my blurred, irritated eyes were just screen fatigue. I rubbed them, took breaks, and relied on blue-light filters. When I visited OptiSaver for a new pair of frames, Optometrist insisted on a full eye check. The Dry Eye Evaluation revealed corneal irritation worsened by my long screen hours. Blue-light protection wasn't enough—my eyes weren't producing enough tears. Early intervention prevented permanent sensitivity and vision loss, showing that professional care matters as much as the frames you wear.

– Johan, Kuantan

KIREIKŌSEN Japan Lenses

SHIELD PRO V5 TECHNOLOGY

why us?

beyond the surface

engineered in Japan, our Kireikōsen lenses are more than just glass—they are a masterclass in protective technology. Each lens features an aspheric design for crystal-clear clarity, enhanced with Shield Pro V5 Technology to repel water, dust, and smudges. Whether you are facing digital blue light or UV rays outdoors, our sun-changeable features ensure your eyes remain protected in every environment.

don't let **diabetes** steal your sight

diabetes **steals sight** silently. Retinopathy rarely warns, and by the time blur or dark spots appear, damage may already be underway, so we keep screening simple, fast, and judgment free with high precision, painless retinal scans, often without eye drops, and same day guidance to protect your driving vision and daily life. **Book your screening today before it's too late.**

clip-on glasses: clear vision, instant sun protection

As visual needs evolve, everyday eyewear should keep up. Clip-on glasses with shade lenses are designed for people with myopia who move between indoor and outdoor settings. Easily attached to prescription frames, they provide **instant sun protection** without changing glasses or carrying an extra pair. The result is **reduced glare, improved comfort, and clear vision** in a clean, modern design that combines prescription eyewear and sunglasses in one simple solution.

photochromic lenses: light-smart vision, indoors to outdoors

photochromic lenses provide a seamless alternative to clip-ons by adapting directly to changing light. The lenses darken automatically under sunlight and return to clear indoors, offering effortless tint control without extra accessories. They deliver consistent comfort, reduced glare, and UV protection in a single pair of everyday glasses—ready for shifting conditions throughout the day.

effortless edge

redefine your everyday look with the Sota Kobayashi TERRA. This standout piece marries a warm, earth-toned acetate rim with the architectural strength of polished titanium. The oversized geometric shape offers a bold, modern personality, while the translucent brown finish ensures the look remains soft and versatile enough for any occasion.

engineered for the discerning wearer, the ultra-thin titanium temples provide a flexible fit that lasts from your first meeting to your late-night dinner. It's more than just eyewear; it's a masterclass in balance—combining the bold statement of oversized frames with the weightless feel of premium materials. Experience the perfect harmony of vintage inspiration and futuristic craftsmanship.

YUTO AOKI
Model: ELEVATE

architectural elegance

step into the spotlight with the Yuto Aoki ELEVATE. A masterclass in sculptural design, these frames feature a rich, wine-colored acetate front that commands attention without overwhelming your features. The elegant, elongated bridge and subtle wingtips create a lifting effect, offering a contemporary silhouette that bridges the gap between vintage charm and modern sophistication.

crafted for those who refuse to compromise on comfort, the 90005 is finished with ultra-slim, gold-toned titanium temples. This clever engineering ensures a feather-light fit that remains comfortable through your longest days. Whether you're heading into a boardroom or a gallery opening, these glasses serve as the ultimate accessory for the modern tastemaker—durable, hypoallergenic, and undeniably chic.

YUTO AOKI
Model: VERDE

a touch of Crimson. These sophisticated frames feature a deep burgundy acetate brow paired with delicate gold-toned titanium for a look that is both academic and avant-garde.

YUTO AOKI
Model: NOIR

the quintessential modern classic. Sculpted in high-gloss black acetate, this timeless silhouette offers a bold frame with a weightless feel, perfect for the minimalist professional.

YUTO AOKI
Model: GRADIENT

master the art of the gradient. These frames transition from a rich, dark espresso to a soft translucent crystal, offering a unique visual lift that brightens the face.

the future of young vision

MyoSIGHT lenses are engineered to provide children with a superior visual experience while actively treating myopia progression. By reducing the growth of eye elongation, these lenses offer a proactive approach to long-term eye health without compromising on style or comfort.

The MyoSIGHT Advantage

- **Advanced Myopia Control:** Proven to slow the progression of childhood myopia by managing eye elongation.
- **Crystal Clear Precision:** Provides perfect vision within the central clear zone for everyday activities.
- **Superior Aesthetics:** A remarkably thin and lightweight design with no visible treatment marks on the lens surface.
- **Ultimate Comfort:** Crafted to feel like a standard single-vision lens for effortless all-day wear.

Superior Aesthetics

Myo Free-Form
